A referral for the above gentleman was passed to CABIS from the Community LD Team. I understand from the referral that Brian is keen to undergo formal assessment of his cognition to inform a decision around his ability to represent himself in court. I am afraid that we do not offer assessments in relation to Court Proceedings and that he should seek this via the Court system or independently.

For information I have reviewed his notes and can see no indication of learning disability from his earlier assessments.

Please do not hesitate to contact me if you wish to discuss this further.

Yours sincerely

**Dr Nichola Robson (née Anderson)**
